## **HOTLY ANTICIPATED ANNOUNCEMENT FOR THE ROOFING INDUSTRY – 2012 ROOFING AWARDS FINALISTS ARE REVEALED**

The level of workmanship displayed with each and every Roofing Awards, continues to underline the fact that the Roofing Industry has some of the most skilled, dedicated and hard-working contractors within the construction industry.

'The Roofing Awards' are here to recognise and reward these companies on their outstanding roofing projects and have been selected based on the demonstrated quality workmanship, technical difficulties encountered, problem-solving, environmental qualities and aesthetics. With the highest level of entries received so far (over 300), there is only space for about 50 finalists across the 12 categories, although the judges and the expert panel unanimously agreed, that year upon year the level of quality work produced by companies that have entered continues to be superb, making it increasingly more difficult to whittle down.

**Therefore, it is with great pleasure that we announce the 2012 Roofing Awards finalists:**
