

NFRC Excellence in Roofing Awards finalists announced

The National Federation of Roofing Contractors Limited's (NFRC) annual Excellence in Roofing Awards recognise and reward outstanding roofing projects in all major roofing disciplines. The finalists have been selected based on demonstrated quality workmanship, technical difficulties encountered, problem solving, environmental qualities and aesthetics. This year NFRC is proud to be working with the European Liquid Waterproofing Association (ELWA), the Lead Contractors Association (LCA) and the Single Ply Roofing Association (SPRA).

"NFRC would like to thank all Trade and Associate members who took the time to enter the Excellence in Roofing Awards. We have received a very wide range of entries of some truly magnificent projects. The companies short-listed can be truly proud to be listed as finalists" said NFRC Chief Executive, Ray Horwood CBE.

With such a large number of entries received incorporating a wide range of projects, the judges certainly had a difficult task in front of them. NFRC would like to give a special thank you to the 2009 judging panel comprising Ian Grimshaw, Master of the Worshipful Company of Tylers & Bricklayers; Nick Edwards, Editor of Construction News; Dr. Paul Blackmore, Associate Director of BRE, and Alan Williamson, Director of Michael Kilbey Associates.

Notes to Editor:

NFRC is the UK's largest roofing trade association representing over 60% of the roofing industry by value. NFRC actively ensures that members offer high standards of workmanship and sound business practice through a strict code of practice and vetting procedure, including site inspections and adhering to the Government endorsed Trustmark standards. NFRC also offers training services, technical advice, and represents member interest to the wider construction industry and Government. For more information please visit www.nfrco.co.uk
